Risks

Risk relating to GFT TOKEN.

GFT TOKEN may experience system failures, unplanned interruptions in its network or services, hardware or software defects, security breaches or other causes that could adversely affect GF TOKEN's infrastructure network, and/or the GF TOKEN ecosystem. GF TOKEN is unable to anticipate when there would be occurrences of hacks, cyber-attacks, distributed denials of service or errors, vulnerabilities or defects in the GF TOKEN ecosystem, the Coins, GF TOKEN's cryptographic wallet, or any technology (including but not limited to smart contract technology) on which GF TOKEN, the GF TOKEN ecosystem, the Coins, GF TOKEN's cryptographic wallet or any other blockchain. Such events may include, for example, flaws in programming or source code leading to exploitation or abuse thereof. GF TOKEN may not be able to detect such hacks, cyber-attacks, distributed denials of service errors vulnerabilities or defects in a timely manner, and may not have sufficient resources to efficiently cope with multiple service incidents happening simultaneously or in rapid succession.

GF TOKEN's network or services could be disrupted by numerous events, including natural disasters, equipment breakdown, network connectivity downtime, power losses, or even intentional disruptions of its services, such as disruptions caused by software viruses or attacks by unauthorized users, some of which are beyond GF TOKEN's control. GF TOKEN will be taking steps against malicious attacks on its appliances or its infrastructure. However, there can be no assurance that cyber-attacks will not be attempted in the future, and that any of GF TOKEN's intended

Grow Finance Token (GF)

enhanced security measures will be effective. Any significant breach of GF TOKEN's intended security measures or other disruptions resulting in a compromise of the usability, stability and security of GF TOKEN's network or services may affect the trading price of the Coins.

Negative publicity may materiality and adversely affect the price of the Token

Negative publicity involving GF TOKEN, the GF TOKEN ecosystem, the Coins and/or any of the key personnel of GF TOKEN, may materially and adversely affect the market perception or market price of the Coins, whether or not such publicity is justified. The trading price of the Coins may fluctuate following the Coin Sale The prices of cryptographic Coins in general tend to be relatively volatile, and can fluctuate significantly over short periods of time. The demand for, and the corresponding market price of, the Coins may fluctuate significantly and **rapidly** in response to **numerous** factors, some of which are beyond the control of GF TOKEN.

Thanks

GFT TOKEN Management
